

990 D

Deadlock

Legge's 990 D Deadlock Mortice Lock has been designed specifically to meet the requirements of the Australasian market. The 990 D is ideally suited for commercial, industrial, institutional and government buildings, where durability and security are of major importance. The 990 D has a high purity die cast zinc alloy case to provide rigidity and precision. Major internal components are made of either stainless steel or sintered steel/copper alloy to provide durability and strength.

Features

- Simple design allows for key or turn to throw or retract deadbolt in several combinations for all your locking needs
- Standard lock suitable for doors 32mm to 50mm thick. Extended cylinders available to accommodate thicker doors
- A threaded pin is used for secure cylinder retention
