

Application

Suitable for residential screening of folding windows, used in conjunction with Weatherfold 4s Servery 35 and Weatherfold 4s Window 35.

Capable of screening openings up to 2600mm wide and 1800mm high. Remote controlled operation can operate up to 5 different screens.

Assembled with high grade materials to ensure quality is maintained. UV stable pleated mesh and motorised roller technology allow the screen to operate smoothly.

Opening Specification

Screen System:

For Individual Screens:

Max Opening Height

Min Opening Height

Max Opening Width

Min Opening Width

312 Retractable Pleated Insect Screen

1800mm

1000mm

2600mm

800mm

Openings can only use one screen per horizontal opening, a total span of 2600mm wide. Aluminium lengths are supplied in kits, for more information see Data Sheet G70.
