Commercial Mortice Locks

Proudly designed, engineered and assembled in New Zealand, our Legge commercial mortice lock series provides a complete range of lock functions to meet your specific project needs.

991 Lock

With over 60 years of product expertise within the Australasian market, Legge are renowned for manufacturing quality, durable commercial door hardware.

New to the Legge commercial mortice lock series is our Legge 991MF with enhanced features to simplify the installation process, along with our trusted longstanding Legge 990MF and 995MF Series mortice locks.

Legge mortice locks are ideally suited for commercial, industrial, institutional, and government buildings where durability and security are of major importance.

Testimony to the quality of the Legge range, commercial mortice locks are rigorously tested in accelerated wear tests of up to 500,000 cycles. The Legge mortice lock series meet the S7 (Physical Security) Australian lock standard (AS 4145.2-2008), and S8 and SL8 physical security when installed with door furniture and anti-drill cylinder.

991MF Mortice Lock Series

If an extended backset is required for a vestibule or combination function, the 990MF V or C mortice lock should be specified.

- Vestibule - key or turn locks or unlocks external handle, internal handle always free
- Combination - key or turn locks or unlocks both handles simultaneously
- Deadlatching engages when door is in closed position
- Reversible bolt for handing

NEW 991MF features

- 991MF supersedes 990MF V and C functions
- Anti-lockout feature can be selected on installation
- Lock compatible with QuickFix™ door hardware, for faster hardware installation
- Extension to the maximum door gap range
- Strengthened lock case for better security
- Case and latch changes for dust resistance and smoother door closing

990 Mortice Lock Series

990MF V and C functions are available if an extended backset is required.

D Series deadbolt

- Deadbolt operated by key or turn

N Series nightlatch

- Latch operated by key or turn
- Automatic deadlocking by closing door
- Hold back by turn

S Series sliding door lock

- Claw bolt operated by key or turn

995MF Mortice Lock Series

- Vestibule - inside handle always operative for emergency escape
- Combination - key or turn locks or unlocks both handles simultaneously
- Automatic deadlocking by closing door
- Reversible bolt and function
