

CISA AERO

Giving you the freedom to manage your system

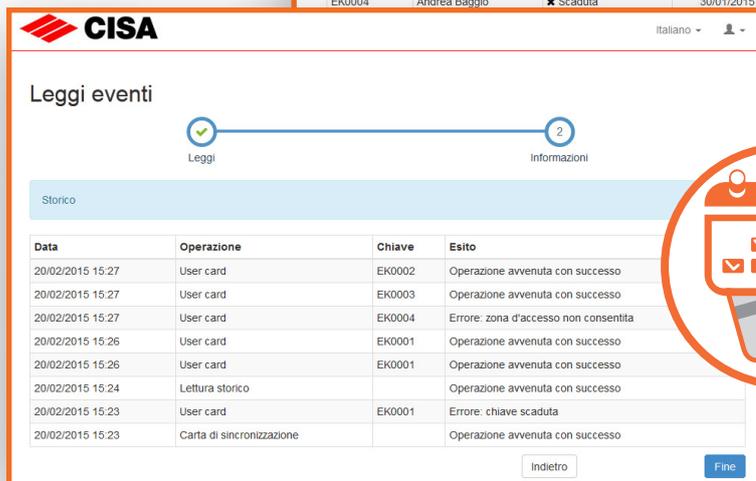

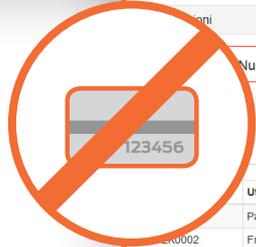

CISA AERO combines the benefits of software management with the convenience of a web service..

PROGRAMME/READ CARDS IN TOTAL FREEDOM AND DECIDE WHICH DOORS TO OPEN

BLOCK CARDS WHENEVER YOU WANT

CONTROL THE EVENTS LOG AND SECURITY INFORMATION

Offers maximum freedom with minimum equipment: all you need is a computer with Windows operating system, a USB reader to read and programme the contactless cards, and AuthentiCard to access your data online in total security.

CISA

CISA AERO

The simple and flexible access control solution

CISA AERO

Your access control solution

Simple and flexible

CISA AERO is designed for all those who want a simple, flexible, tailor-made electronic lock system.

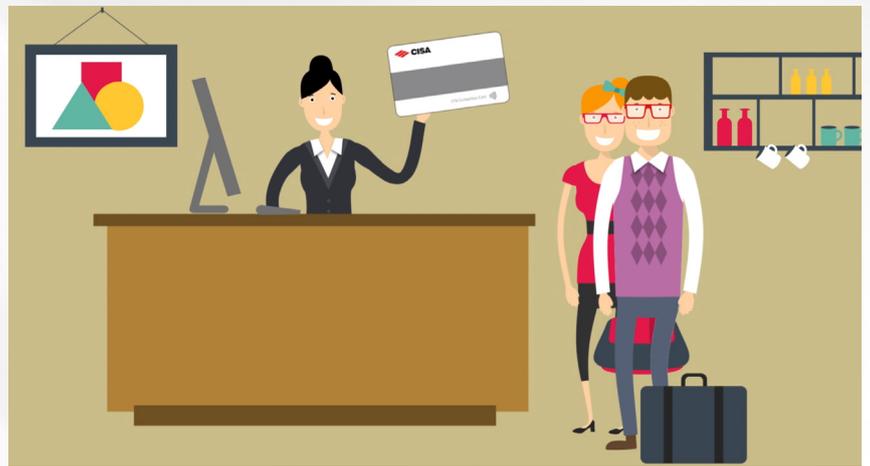

CISA AERO is **simple** because it is a web service and you can programme the keys without having to worry about managing the data and the application: CISA does all that for you.

CISA AERO is **flexible** because in just a couple of clicks you can tailor the whole system to your needs.

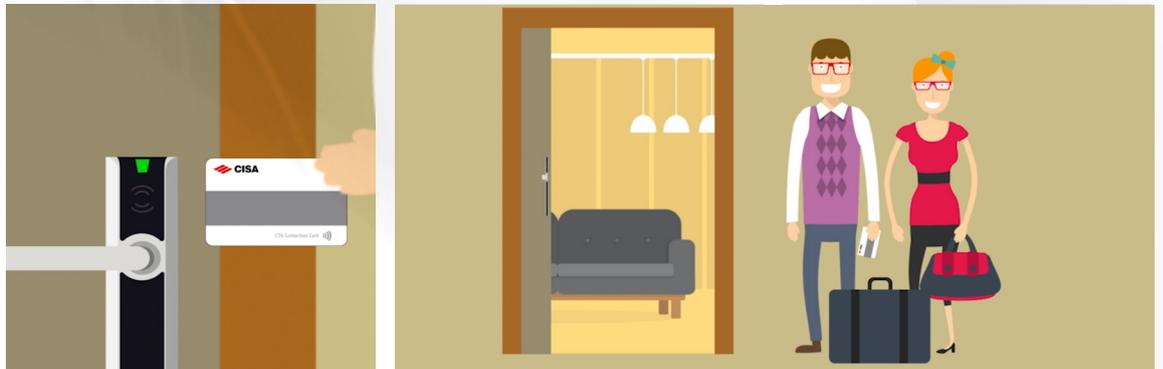

For further information, visit: www.cisahotels.com

Decide which doors to open

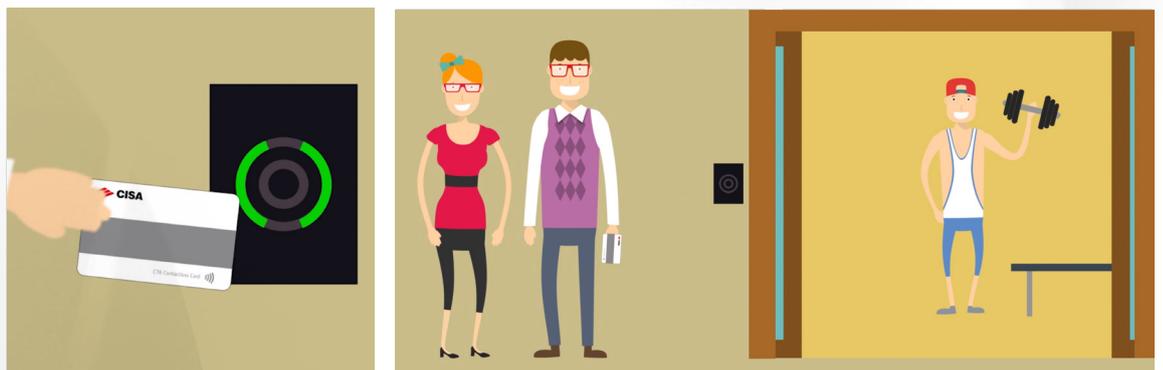

Programme your cards in total freedom: choose the doors to open, set the time period and, if you wish, the days and times the key can be used. Choose from a number of different devices: cards, adhesive patches, key fobs. CISA provides contactless solutions for all your access needs.

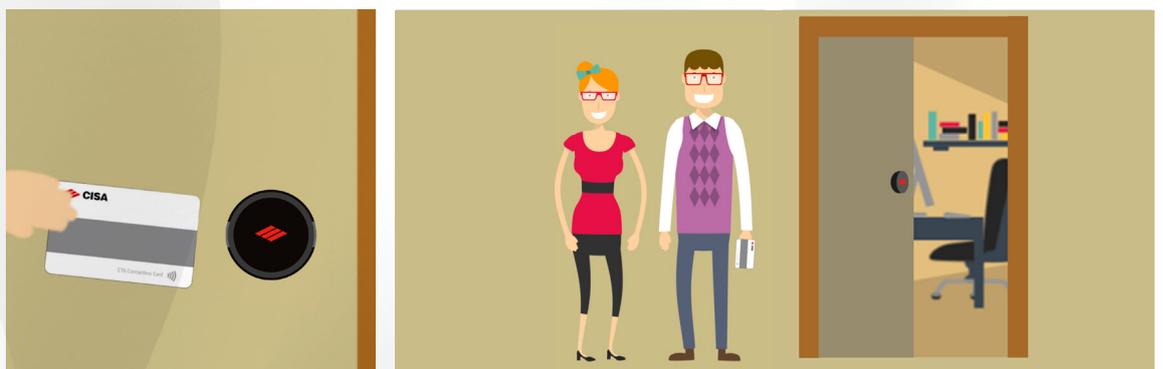

CISA eSIGNO lock

Wall reader (ideal for communal areas, gates, barriers...)

Electronic cylinder

Keep
the system
secure

If a key is lost, you can block it so it cannot be used to open doors.
CISA AERO gives you peace of mind - always.

Everything
under control

A service card allows you to consult the events log of all doors fitted with electronic locks: the date, time, key used, access granted or denied.

It also enables you to perform any operations on your locks freely and easily: from initializing the system to maintenance (synchronization, replace batteries, ...).
