Locking solution

The Schlage Omnia™ Smart Lock is the ideal locking solution for use in apartments and complexes with internal access, where fire rating** is required. These might include multi-residential apartments, office complexes, retirement villages and managed Airbnb dwellings, where access needs to be managed for multiple parties and simplicity is vital.

Enhanced security features

Security features include a built-in alarm that activates if the lock is tampered with, auto locking, and a low battery indicator on the lock, or through notifications on your smartphone via the Schlage Breeze app.

Enhance your security, without compromising on design, with the sleek Schlage Omnia™ Smart Lock.

Convenient access

There are multiple ways of securely accessing the Schlage Omnia™ Smart Lock. The lock comes complete with 3 key tags as well as a key override, or use the keypad or fingerprint scanner.

With built-in Bluetooth, the Schlage Breeze app allows access of the lock through your smartphone. Set up access codes for trusted friends and family or send electronic codes to provide temporary or recurring access. For remote access to your lock, pair your lock with the Schlage Wi-Fi Bridge (BZ100). Send access codes or be alerted if your lock has been tampered with, all from wherever you are.

Convenient access, with high security and dependability is critical in today's smarter way of living.

Easy to install and get connected

The Schlage Omnia™ Smart Lock is easy to install with no wiring or complicated spare parts. Simply follow the step by step instructions provided with the lock to install. Once the lock is installed, download the Schlage Breeze app on your smartphone for simple connection and programming.
